Physical Location and History:

The town of Griffith, Indiana is located in the Calumet Lacustrine Plain of former glacial Lake Chicago. Many major roadways surround and service Griffith. Interstate 80/94 borders the town on the north side, Cline Avenue, a major north/south thoroughfare runs along the western edge of the town, Colfax Avenue borders the town on the east side, and Avenue H and the Turkey Creek Ditch lie on the southern edge.

According to the most recent census (2010), Griffith is comprised of 16,900 residents from diverse backgrounds. The town of Griffith’s dedication to fostering a cohesive, healthy neighborhood is evident in its design; unlike towns of similar or larger sizes, Griffith does not segment its town into smaller communities, thus creating an inclusive environment for all of its residents. Not only are the residents diverse in age (64.52% are between the age 18 and 64), race (1 out of 4 residents are non-white), and education attainment levels (1 out of 10 residents over the age of 25 do not hold a high school diploma), they share a diverse set of assets, a unique history, culture, and community challenges. Among its assets are a vibrant downtown area comprised of thriving small businesses and specialty shops unique in the region (e.g., American Natural Resources, G&G Hobbies, Wild Rose Brewing Company), a former school that was renovated and now serves as a community center/YMCA, the Erie Lackawanna Trail and Oak Savannah Trail, the Griffith Historical Society/Rail Road Museum, an airport, proximity to the City of Chicago and affordable housing stock. Griffith’s unique history and culture is one that is openly acknowledged, embraced and celebrated by the town’s residents as is evidenced by year-round music, art, and other community festivals. The town’s history is honored by the historical society’s successful efforts at housing many pieces of memorabilia pertaining to the town’s development over time.
Challenges and Opportunities

The town’s challenges and opportunities are centered in its response to workforce diversity (race and industry composition). In the last decade, the town has seen increases in its Latino and African American populations (53% and 62%, respectively). Currently, only 13% of small businesses in Griffith are owned by non-white owners. The community, while it embraces diversity, is challenged with looking for and attracting diverse businesses that are highly technical and sophisticated in nature. This is not an industrial town, thus it has low manufacturing and shipment production. For example, in 2007, the town’s businesses manufactured and shipped only one unit valued at over $1000; the state of Indiana aggregate total for that year was 221,877,814 units.

Civic, Physical, Social and Economic Attributes

When defining the health of Griffith, Indiana, one must call attention to its civic, physical, social and economic attributes. The use of a gap analysis strategically identifies the current state of those attributes, while providing insight to the future direction of the town. As mentioned above, Griffith’s civic health, as a result of diversification, has improved and has taken on new dimensions through efforts undertaken to create a more collaborative community where individuals share and enjoy public goods and services. The town’s education system focuses on delivering college and career preparation to its students. Through teacher, parent and community collaboration, the town of Griffith graduates 91% of its students from high school.

The town’s physical infrastructure was updated to include more bike trails, parking in the downtown area, and the beautification of community parks. These revitalization efforts created spaces where citizens can gather and socialize. For example, annual cultural celebrations such as the Rock ’N Rail Street Festival, Park Full of Art, and the Griffith Central Market (a family festival event hosted every Friday for 20 weeks in spring and summer), unite local business owners, residents, and visitors. This socialization and the foot-traffic it fosters have created enormous economic opportunities for local businesses, and have also created a variety of positive experiences that can be internalized by the residents and visitors to the events.
The following data provides additional insight into the Griffith community.

### Population by Functional Age Groups

- Under 5: 2,028
- 5 to 19 years: 1,212
- 20 to 24 years: 1,096
- 25 to 64 years: 8,999
- 65 years and over: 3,430

Median age: 35.6 years old

### Residence 1 Year Ago

- Same house: 14,013
- Same county: 2,028
- Same state, different county: 1,592
- Different state: 904
- Abroad: 21

### Population by Race

- White: 12,601
- Black or African American: 410
- Am. Indian and Alaska Native: 990
- Asian: 41
- Some other race: 360
- Two or more races: 2,363

### Hispanic or Latinx Population (all races)

- Hispanic or Latinx (of any race): 2,217
- Not Hispanic or Latinx: 14,548
Median household income: $52,800

- Less than 9th grade: 3.8%
- 9th to 12th grade, no diploma: 2.5%
- High school graduate: 7.0%
- Some college, no degree: 28.3%
- Associate's degree: 38.3%
- Bachelor's degree: 7.7%
- Graduate or professional degree: 12.5%

Poverty Level by Educational Attainment:
- Less than high school graduate: 9.8%
- High school graduate (includes equivalency): 6.6%
- Some college or associate's degree: 9.3%
- Bachelor's degree or higher: 3.0%

Households by Income:

- Poverty Level by Educational Attainment:
- Less than high school graduate: 9.8%
- High school graduate (includes equivalency): 6.6%
- Some college or associate's degree: 9.3%
- Bachelor's degree or higher: 3.0%

Percentage of People in Poverty in Past 12 Months:
- All people: 12.6%
- Under 18 years: 20.3%
- Under 5 years: 30.7%
- 65 years and over: 7.5%
Note: Some people may have more than one type of disability. This data reflects all ages, but not all ages report on all types of disability. For children under 5, data is only reported on hearing or vision difficulties. For children under 18, data is not reported on independent living difficulty.

Total population with a disability: 2245, or 13.4% of the noninstitutionalized population. 41% of the population 65 years and over have a disability.

Source: U.S. Census Bureau, 2010-2014 American Community Survey 5-Year Estimates
Looking Ahead to the Future / Civic, Social, Economic and Physical Growth

The community, while enjoying many strengths, also recognizes it must seek to continue improving its civic, social, physical, and economic infrastructure.

**Civically**, the town wishes to address the call for diversified marketing, and to create ways to facilitate, expedite and streamline communication to ensure all residents are well-informed and given equal opportunity to become engaged with the community. This need for improved communication and engagement is particularly evident in the apparent disconnect that exists with the residents of the community’s rental properties.

**Socially**, the town has room to develop and build upon the activities that lead to a more inclusive town. One recent strategy is the Griffith Community Initiative, funded by the Legacy Foundation. This initiative, which is based upon the objective of building a communication network of support through qualified volunteers and project leaders, unifies the community through a sense of purpose and residential involvement. This additionally serves to support the many active civic, social, and church-related organizations, which periodically have difficulty physically servicing their own events and projects.

The existence of this volunteer and improved communications network and its possible expansion would also provide an opportunity to create a more open and collective dialogue between the town’s elected leaders, the organizations listed above, and the citizens who would not typically have a voice.

**Physically**, the town must continue to build meaningful structures and maintain and improve current structures, properties, and neighborhoods that make the town accessible and provide for its aesthetic and physical quality, safety, and attraction for the town’s residents and businesses. To this extent the Griffith Police Department has taken an active role in identifying blighted properties owned by aging and/or infirm residents who, due to their conditions, are unable to adequately care for their property. Once identified these properties are referred to the Griffith Community Initiative where appropriate volunteers are located to assist in the improvement of these privately owned properties. While this effort to address blighted residential properties should not be overlooked, the town continues to be challenged in its efforts to adequately address the many vacant commercial properties located throughout the community (Griffith Cinema, Calvary Church, Pactiv, John’s Fine Dining).

**Economically**, the town wishes to increase the number of female and minority business owners, while finding new and inventive ways to recruit businesses that suit the future of the town and support regional initiatives. Over the past five years, while our Chamber of Commerce has become less active, Griffith has experienced a rise in new business ventures. These include an eclectic café, two music
stores, a hair salon, barber shop, and three micro-breweries, all of which represent a youthful contingent of entrepreneurs driving their stakes into the ground to support their families and the town's future and diversity.

**Summary and Next Steps:**

As we assess the status of the community's civic, social, physical, and economic infrastructure, we realize that we have an immense amount of opportunity for neighborhood growth and development. In order to take advantage of this opportunity, to assure that we can coordinate growth and development effectively and efficiently, we realized that we must build a master plan to drive and sustain Griffith going forward. This Collective Impact Plan process fits this need and is the final critical piece to support the future of our town and our residents.
Collective Impact Process

Neighborhood Spotlight is an initiative of the Legacy Foundation that supports place-based collective impact in Lake, County, In. The supporting Collective Impact Process is defined by five principles and takes place in three stages:

1. **Backbone Support**
   Organize
   - The Steering Committee Organization
   - The Conversations, Focusing Comments and SWOT analysis

2. **Common Agenda**
   Decide
   - The Report Back / Kick-Off Event
   - The Vision Statement for the Town
   - Development of Primary Quality of Life Plan Supporting Goals & Action Items
     - Supporting Data
     - Primary and Supporting Accountability
     - Key Performance Metrics

3. **Shared Measurements**
   
4. **Continuous Communication**
   Act
   - Quality of Life Plan Roll-out Event
   - Implementation of Goals and Action Plans
   - Continuous Networking for Support
   - Continuous Plan Improvements & Communications

5. **Mutually Reinforcing Activities**

Process Goals & Timelines for Griffith Neighborhood Spotlight

The goal of Griffith Neighborhood Spotlight is to develop a Quality of Life Plan through the collaborative efforts of our residents, civic and faith-based leaders, business owners, and school and government officials, all working together for the common good of our one neighborhood community. We will use the Collective Impact Process as the primary ‘tool’ to achieve this overall goal.
Griffith Neighborhood Spotlight

The Griffith Neighborhood Spotlight (GNS) initiative was organized in early December, 2015, after the community of Griffith was selected to participate in the program by the Legacy Foundation in November. The GNS initiative was convened and supported by our ‘backbone’ organization, the Crossroads YMCA, after a start-up Steering Committee of six Griffith resident volunteers was formed. This group of individuals attended training in 2014 and 2015 and participated in the development of the grant application.

A Community Builder was hired in early January, 2016, to organize, facilitate, and support the work of the Steering Committee. Additional community based volunteer members joined the Committee to support the front-end ‘Engagement’ and information gathering phase of the Collective Impact process.
Conversations and Report

From January to May 2016, the GNS Committee completed a total of 187 one-on-one interviews with a combination of residents and leaders from our town government, schools, community businesses, and civic, volunteer, and faith-based organizations who were invited to ‘Join the Conversation’. These ‘conversations’ resulted in 2064 individual comments regarding our interviewees’ current perspective on the town’s Quality of Life. A report containing these comments was shared with the community on Togetherhood Day (May 14, 2016); this report can be found at http://griffithymca.org/programs/social-responsibility/griffith-neighborhood-spotlight

The conversations characterized our town as being clean, not too big or too small, with a good sense of town pride and safe, quiet areas to live. Many residents comment that “It’s my kind of town”. Participants described Griffith as having a diverse population that is close knit and pulls together in times of need. Griffith is said to be appealing to millennials with ‘hipster’ year-round festivals and events; respectful of its seniors; mindful of its history; with a fresh, progressive business environment. People have said that the town has good leadership and supportive community services, a diverse selection of churches with a united group of clergy, and a great network of community volunteers where residents can get involved and get things done.
The Visioning Session

On June 18th, 2015, the GNS Steering Committee hosted a Visioning Session at the Griffith Lutheran Church to create a formal Vision for the Town. The Vision was created and based on the information that was communicated at the May 14th Togetherhood Day “Report-Back” and from the input regarding what should be our focus and direction for creating work groups for our neighborhood. The invitation to be involved in this development was open to all.

A total of 35 individuals representing our Neighborhood’s civic, faith-based and volunteer organizations, as well as businesses, schools, and government came together to develop a Vision Statement for our town. This Vision provides a unifying focus for the Town’s strategic development across the next ten years.
VISION STATEMENT
Town of Griffith, Indiana

One town, One community, **One Neighborhood**

The Town of Griffith is known for its welcoming and eclectic mixture of social, business and religious environments, grounded by its cohesive diverse population and a sense of community spirit and pride.

This “one neighborhood” feel is perpetuated by a strong coalition of community volunteers and a progressive partnership of trust with its government, town services and school town, making its residents feel supported, protected, safe and secure. A strong communication network efficiently and effectively connects all residents to their government, town services, school town, and civic, church, volunteer organizations and businesses.

Innovative housing opportunities and apartment living options offer appealing affordable choices for families of all sizes and types and people of all ages. Our beautiful, well-maintained parks and recreational facilities, walkable bike trails, children’s playgrounds and landscaped streets are decorated with seasonal and public art. These open spaces and public venues provide attractive platforms for a variety of popular outdoor festivals, markets, cultural events, youth sports, child’s play and facilitated community programs, offering conversational and social opportunities for everyone that is part of our “neighborhood”.

As a supporting economic base for the town, the popular and quaint downtown business area sits in balance and contrast to the interstate-accessible modern uptown business district and the local access corridors. Each area of commerce provides its own unique variety of progressive business opportunities and shopping conveniences for residents and visitors alike.

These binding characteristics of our town represent why “the little town that came to the tracks” in 1904 is still here and providing its close-knit residents with a great place to live, work, play, and worship - a place that feels more like a family than a town.

Griffith Neighborhood Spotlight Steering Committee
Volunteer Residents
August 22, 2016
Work Groups
Achieving the Vision

Work Groups formed around four topics to develop strategies for reaching the town’s vision. Groups based their ideas on neighborhood research and data; input collected during one-on-one conversations and through the visioning session; and feedback from partners. Out of these ideas, groups drafted specific, measurable goals and work plans that highlight timelines and responsible parties and supporting partners to ensure accountability.

PARKS INFRASTRUCTURE and RECREATIONAL PLANNING

COMMUNICATION INTEGRATION and NETWORKING

BUSINESS DEVELOPMENT and GROWTH

BRANDING and MARKETING of OUR TOWN
The Vision:

Our beautiful, well-maintained parks and recreational facilities, children’s playgrounds, walkable bike trails and landscaped streets are decorated with seasonal and public art. These open spaces and public venues provide attractive platforms for a variety of popular outdoor festivals, markets, cultural events, youth sports, child’s play, and facilitated community programs, offering conversational and social opportunities for everyone that is part of or visiting our “neighborhood.”
The Parks Survey:

The Parks and Recreation Board conducted a survey during the summer of 2016. 349 responded to a survey regarding the parks. 80% of respondents have lived in Griffith for over 10 years; 55% of respondents have lived in Griffith for over 20 years. Respondents varied in age, with almost three quarters being between 35 and 64 years old. It’s important to note that this sample is not representative of the entire community; while it does provide important insights into park usage and perceptions, the results should not be overly generalized.

The survey asked residents about their experiences with each of the parks and recreation areas in Griffith including playgrounds run by the county, schools and apartment complex. Their responses reveal that Central Park is used most heavily, followed by the Bike Trail. Oak Ridge Prairie Lake County Park is also visited on at least an annual basis by many people. Each of the other parks had at least half of those who responded indicate that they never use the park.

The survey also asked, “Is there anything that prevents or restricts you from using the parks?” The question was answered by 119 people, among whom safety and park conditions were the biggest concerns. Park conditions primarily referenced to the playground equipment in each of the town parks are in need of refurbishing and surface enhancements. Safety was noted as a concern, however no comments to clarify key issues.

Over 100 comments were made in the survey consisting of suggestions on park playground enhancements; flower /forestry enhancements; Activity/program suggestions for all ages; and concerns regarding the need to improve the town sports venue facilities.
Goal 1: Improve perception of safety on bike trails and in public parks, measured by a 50% decrease in safety concerns identified on the Parks and Recreation survey by December 2019.

</table>
| Evaluate options to use as best application platform to serve the town Neighborhood (along with #3 above) in accessing the GEACC information:  
  • use of single unifying website for all base participants  
  • use of tie-in links to all base participants on the Town’s website via an “in-development” 311 application.  
  • use of an additional Town Message Board on the Town’s website platform. (Similar to a weekly version of the Griffith Informer) | NS Communications Team | • TC Representative  
• Web-Site Developer  
• Outside Consultant | June 2018 | Go or No-Go decisions on each – some could be combined or integrated. |

1. Create single unifying (GEACD) website; or

2. Create expanded tie-in links on the Town’s existing website using the new 311 application site; or

3. Create a GEACC Town Message Board (expanded or combined use of Imagine Griffith FB page or Griffith Informer formats) by enhancing the Town’s website to support “311” and a GEACC website
QUALITY of LIFE PLAN
BUSINESS DEVELOPMENT and GROWTH

Team Members
Shawn Graham (Team Leader)     Ken Karlstedt, Sr.

The Vision:

As a supporting economic base for the town, the popular and quaint downtown business area sits in balance and contrast to the interstate-accessible modern uptown business district and the local access corridors. Each area of commerce provides its own unique variety of progressive business opportunities and shopping conveniences for residents and visitors alike.
Employment by Industry

Employment by Occupation

Employment Status, Population 16+

- Employed: 8,054
- Unemployed: 788
- Not in labor force: 4,174
Goal 1: Develop and implement a quarterly facilitated **Neighborhood Business Forum** beginning with 5 participating businesses in 2017, to exchange concerns and recommendations for their resolution.

QUALITY of LIFE PLAN
BRANDING and MARKETING of OUR TOWN

Team Members
Nick Biancardi (Team Leader)
Quin Barwick     Michelle Velez     Kim Swender

The Vision:

The Town of Griffith is known for its welcoming and eclectic mixture of social, business and religious environments, grounded by its cohesive diverse population and a sense of community spirit and pride.

This ‘one neighborhood’ feel is perpetuated by a strong coalition of community volunteers and a progressive partnership of trust with its government, town services and school town, making its residents feel supported, protected, safe and secure.

These binding characteristics of our town represent why “the little town that came to the tracks” in 1904 is still here and providing its close-knit residents with a great place to live, work, play, and worship - a place that feels more like a family than a town.
**Goal 1: Establish A Brand Strategy and Visual Identity** that unifies all visuals, marketing materials, and signage that is Town Council approved by the end of September 2017.

</table>
Next Steps:
Our goal going into 2017 is to initiate the work outlined in each of the (4) Work Projects with your help and support. We will need additional volunteers and leaders to keep the momentum going from 2016 and hopefully be able to add new work projects as the needs arise. We also need to create support partnerships with businesses, institutions, church work groups, volunteer organizations and as many residents who want to give of their time and talents to help improve our Neighborhood’s Quality of Life.

So if you would like to get involved, contribute alongside your fellow citizens while building new relationships, please contact me and let’s have a Conversation.
